Project Title: Tommy Caldwell Website

Site will have multiple pages with navigation bar across the top. I want to feature the process of his climbing because it is a methodical approach which heavily relies on weather information and knowledge of the route.

- Home Page/Introduction – Introduce who he is and what he is known for
- Early life and amateur career- how he was discovered and his family life that led to his later career
- Biggest accomplishments- his biggest climbs in Yosemite, the Fitz in Patagonia, etc.
- Personal/home life- his view on balancing family and risk
- Partnerships-particularly with Patagonia, a few documentaries, friendships in the climbing world like Alex Honnold
- Sources – the documentaries that I have seen about him, other websites, and Wikipedia page
